Social Style Survey

Client's Name: _____

Date: _____

Instructions: Below is a list of words or phrases commonly used in describing people and helps us best match the personality of the service dog with our service dog clients. This survey may be difficult and confusing to fill out, especially for young children, and some categories may not apply to your situation. Typically, we need at a minimum 2 surveys back on each individual. One that you complete yourself, and the other a friend, family member, therapist, or co-worker will fill out. To make the match more successful, returning more surveys to us from a variety of people that know the client will help us with the matching process. For parents seeking a service dog for younger children, it is acceptable for the person filling out this form to do a survey as best they can on the child, then another as they know the family as a whole unit.

If you are filling this out for yourself, just complete the rating box for the center column. For each word or phrase completely fill in box that best describes how you view yourself. **For those individuals assisting the client, completely fill in the center rating box that best describes your impression of this person's** behavior in relation to that word or phrase. Then in the right column, fill in the box how you see yourself in comparison to the client.

For example, if you see the **client** as a moderately high in risk-taker but see **yourself** as less of a risk taker, you might complete the scales as follows:

Example

	Low							High	Less	Same	More
	1	2	3	4	5	6	7	1	2	3	
12. Is a risk-taker	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	

Please be as accurate as you can and respond to every item. Your responses will be combined with those of others to give this person feedback about how others perceive her or his behavior.
